

The longest day - Wednesday - 02.11.2022			
Hour	Session	Title	First Author
9:30	Opening Ceremony	Welcome speech of Prof. Dr. Csaba Gyuricza (rector), and Dr. Zsolt Semjén (vice prime minister)	
10:00	Plenary	Home Range and Movement Activity of Golden Jackal (Canis Aureus) in Central Europe	Csányi, Erika
Chair		Cirovic, Dusko	
10:45	Ecology	Exploring the ecology of the golden jackal (Canis aureus) using the first telemetry data collected in Italy	Frangini, Lorenzo
11:15	Ecology	Fine-scale spatial distribution and temporal activity patterns of three mesopredators: A case study from Greece	Giannatos, Giorgos
11:45	Ecology	Preliminary determinants of (long distance) dispersal behaviour in Golden jackal	Potočník, Hubert
12:15	Ecology	Seasonal movement patterns and space use of golden jackal (Canis aureus) in the suburban areas of Serbia	Pantelić, Ilija
12:45	Coffee Break		
13:30	Plenary	Rise of a golden jackal (Canis zureus) population: genetic diversity and structure during expansion	Bogdanowicz, Wieslaw
Chair		Guimarães, Nuno	
14:15	Ecology	Stay home, stay safe? High habitat suitability and environmental connectivity increase road mortality risk in a colonizing mesocarnivore	Frangini, Lorenzo
14:45	Ecology	Humans shield golden jackals from wolves in their expansion across Europe	Ranc, Nathan
15:15	Ecology	Habitat preference of golden jackal (Canis aureus) in Serbia	Bogdanović, Neda
15:45	Ecology	First record of multiple breeding and communal nursing within one social unit of European golden jackal (Canis aureus, L. 1758) in a low-density area in NE Italy	Stefano, Pecorella
16:15	Coffee Break		
Chair		Lanszki, József	
16:45	Feeding habits	How urbanization and diet influence coyote behavior	Ellington, Hance
17:15	Feeding habits	Developing correction factors for improved diet analyses of golden jackals (Canis aureus)	M Klinkhart
17:45	Feeding habits	Deer for dinner! First documented predation with camera-trap of golden jackal on roe deer and subsequent kleptoparasitism by wild boar in Italy	Frangini, Lorenzo
18:15	Feeding habits	Can the donkey be a possible prey for golden jackals? Description of the predation strategy on multiple attacks	Pesaro, Stefano
19:00	Dinner
